

It's a dirty world. Now it's easier to keep clean with Touch₂O™ Technology.

You're sure to fall in love with Touch₂O Technology with just one touch. The intuitive technology enables you to turn the faucet on and off with just a touch—anywhere on the faucet's body or handle.

2 Clean

When hands get messy, you can start the flow of water with a forearm or wrist, minimizing cross-contamination.

3 Efficient

Touch₂O Technology enables you to turn on and off the faucet with just a tap, making kitchen tasks easy during food prep and clean up.

1 Simple

A simple tap anywhere on the spout or handle intuitively turns the faucet on and off.

4 Stylish

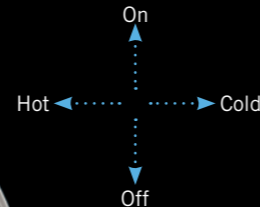

Inspired by the fusion of technology and nature, Pilar™ with Touch₂O Technology not only performs to fit your life, its look matches your lifestyle.

5 Water Efficient

The tap feature makes it easier to turn off the water flow when not needed between tasks, saving water.

Exclusive magnetic docking system engages the wand to its docked position, keeping it securely in place.

Activate Touch₂O™ Technology anywhere on the faucet or handle.

Touch₂O™ Technology.
Touching your life every day.

7 am Morning Walk

After a long walk, a dog's master can give his or her favorite pooch a quick drink by just touching the faucet—with a hand, finger or even a paw—thanks to Touch₂O™ Technology.

2 pm Playtime

Creativity can be messy. But wash up is child's play with Touch₂O™ Technology. One touch of the faucet is all it takes. If hands are messy, a touch with a forearm or wrist works, too.

6 pm Dinner Time

When mealtime is over, cleanup is easy. One tap of a Delta faucet with Touch₂O™ Technology brings water right at hand—even without using your hands! A wrist or forearm can be used to minimize cross-contamination of bacteria during food prep.

8 pm Hobby Time

A favorite pastime can turn into a greasy situation. Touch₂O™ Technology delivers running water without using your hands. A tap of a wrist works just fine.
