

Edgewood Tahoe

LAKE TAHOE,
NEVADA

PROJECT FACTS:

Design Firm: HBA San Francisco

Designers: Brooke Copani, Natalie Reeve

Property: Edgewood Tahoe

ON THE SHORES OF LAKE TAHOE, DELTA® FAUCETS LEND A CLASSIC FEEL TO A NEWLY-BUILT LODGE.

From lake to links to lodge.

For nearly half a century, the Edgewood Tahoe Golf Course has been a fixture on Lake Tahoe's south shore. When the owners announced plans to transform the property into a full-destination resort, HBA San Francisco set about creating a 154-room lodge that would be distinctive, yet comfortable—and “deliver the lake” at every opportunity.

An interior that honors its exterior.

Working in tandem, HBA San Francisco designers Brooke Copani and Natalie Reeve crafted a classic look that fosters a strong connection between the building and its environment, incorporating natural elements such as wood and stone that reflect the structure's surroundings.

As a key element of their design, Copani and Reeve outfitted the lodge's bathrooms with Delta Vero® Single-Handle Lavatory Faucets and Delta Vero Roman Tub Faucets, selecting a Chrome finish for both. With a graceful arc and slim, ribbon-inspired lines, the Vero collection's sleek, timeless style helped HBA San Francisco create a look that is luxurious, yet welcoming.

Brooke Copani

Natalie Reeve

DESIGNER BIOS:

HBA San Francisco designers Brooke Copani and Natalie Reeve share a passion for interior design. Both graduated with honors—Copani from the University of Florida, and Reeve from the Academy of Art University in San Francisco—and both have worked on numerous HBA San Francisco projects. Copani lists the Hilton Santa Fe Mexico City hotel and San Francisco's 1300 on Fillmore restaurant among her most memorable achievements; while Reeve names Canada's Fairmont Chateau Lake Louise hotel and Pacific Gate by Bosa, a collection of luxury condo residences in downtown San Diego.
