

ARCHITECTURAL™ DESIGN SERIES

DRIFTEX™

CONTRASTA™

RUSTICA™

Introducing the new **Architectural™ Design Series**
from Delta Commercial—quality plumbing products that bring the
unexpected to commercial spaces. Luxurious high-end collections
designed without sacrificing commercial quality and innovation.

REIMAGINE

COMMERCIAL PLUMBING SOLUTIONS

Designed for high-use areas, with residential elegance in mind, the Architectural™ Design Series allows you to create a bathroom space as refined as the rest of the interior while seamlessly layering in advanced technology.

SERIES HIGHLIGHTS

The Architectural™ Design Series features faucets and soap dispensers with Proximity® Sensing Technology and flush valves with H₂Optics® Sensing Technology. Three aerator and flow rate options allow for greater flexibility when designing your restroom.

FEATURED FINISHES

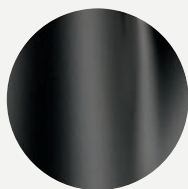

Our versatile designs aren't just stylish—they're paired with a wide range of finishes to help them complement any décor. Add warmth and depth to your vision.

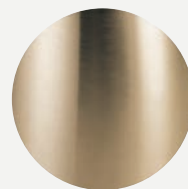

(CH) Chrome

(SS) Brilliance® Stainless

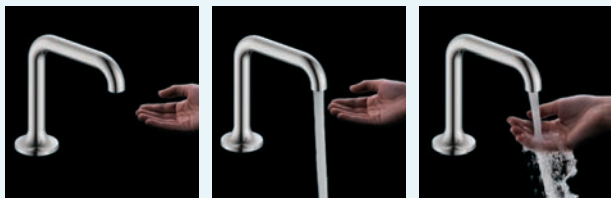

(BL) Matte Black

(CZ) Champagne Bronze®

INSPIRED DESIGN WITH RELEVANT TECHNOLOGIES

PROXIMITY® SENSING TECHNOLOGY

Proximity® Sensing Technology allows the user to turn on the faucet or soap dispenser by simply placing a hand near the body. The entire body acts as a sensor, responding when activated. These products are designed for tough conditions and busy facilities that require hands-free operation, vandal resistance, reliable operation, and ease of maintenance.

H₂OPTICS® SENSING TECHNOLOGY

H₂Optics® Sensing Technology is one of the most advanced hands-free sensing technologies for flush valves in the industry today. With the ability to accurately sense the user's distance—regardless of external factors such as light reflection, clothing color, or textures—H₂Optics® Sensing Technology provides consistent, dependable results.

The Architectural Design Series faucets ship complete with three aerators which allow flexibility at time of installation.

LAMINAR FLOW
A streamlined flow that provides a clear and natural appearance

AERATED FLOW
An aerated stream that feels soft and pleasant

MIKADO FLOW
A unique grid-like spray pattern that takes water experience to a new level

AVAILABLE NOW

- Faucets are available in three flow rate options:
1.0 GPM (3.8 L/min)
0.5 GPM (1.9 L/min)
0.35 GPM (1.3 L/min)
- Coordinating 4" centerset cover plates

AVAILABLE 2024

- Coordinating faucet and soap dispenser combo unit
- Coordinating flush valves

All soap dispensers accommodate both liquid or foam soap
